INTER-TRIBAL EMERGENCY MANAGEMENT COALITION

ITEMC was formed in December 2004 as learning and networking resource for Tribal emergency management professionals. Because of the checker-board layout of our Tribal lands, the need for networking, enhancing and strengthening our working relationships with Federal, State, County, and City soon became paramount. The first Summit was held in June 2008 with about 180 attendees and has grown each year. The Summits are designed to help those involved in Emergency Management to understand and overcome misconceptions about jurisdictional boundaries, organization, tribal resources, and receiving federal assistance. It has evolved into an excellent opportunity for Tribal, State, and local officials to network with other agencies and organizations.

We are pleased to present a variety of resources from Tribal governments, State and Federal agencies and the private sector.... all in one conference to help identify ways in which all of us can work together to provide better preparedness, response, recovery and mitigation efforts in emergency and disaster situations.
