

Get To Know Us!

Welcome to the National Tribal Emergency Management Council (NTEMC).

The NTEMC is a tribal organization bringing Indian Country together to promote sovereignty, self-determination, self-reliance and self-governance. The NTEMC recognizes we must be able to come together as we plan, prepare, respond to and recover from an incident or disaster.

NTEMC serves as a resource of vital information pertinent to the development of tribal emergency management programs, assists with emergency planning efforts, and acts as a recognized advocate to the federal government for tribal issues.

Benefits of Aligning with NTEMC?

The NTEMC was created by tribal people, for tribal people and for tribal nations. Indian Country must take responsibility when it comes to Emergency Management and NTEMC can help in the following ways:

- Assist you in cutting through the Red Tape of the Federal Government before, during and after your time of need.
- Serve as a resource for real Disaster Planning including:
 - Risk and Threat Analysis
 - Emergency Evacuation/Sheltering
 - Mitigation and Restoration
 - Emergency Check list
- Assist with forming alliances when your resources and response services are overwhelmed.
- Provide you with best practices, tools and strategic relationships to tribal entities.
- Direct your tribe to useful trainings that are applicable to tribal circumstances (land, resources, and traditions).
- Gain you access to products and services at discounted prices from world class vendors through a partnership with *The National Joint Powers Alliance*® (NJPA®)
- Promote and secure the tradition of Indian Country as one large, collective voice.

Stafford Disaster Relief and Emergency Assistance Act

The recent passing of the amendments to the Stafford Disaster Relief and Emergency Assistance Act recognizes the sovereign status of tribes, separating tribes from cities, counties, states and other municipalities. These amendments offer tribes an opportunity to play a more critical role in the protection of their lands and the United States. As a tribal organization, the NTEMC is here to assist in taking advantage of this opportunity by sharing best practices, tools, and mechanisms to help tribal nations prepare for emergencies and disasters.

Interested in Partnering with NTEMC?

NTEMC believes strongly that public safety is a trust responsibility and therefore there are no membership requirements or costs for tribes to participate. We want to get to know you for the purposes of sharing information. Please visit the following link and submit your tribe's contact information, www.njpacoop.org/tribal.
